# PERSONALIZED SUPPORT IS A PHONE CALL AWAY

Our Care Management program offers specialized, ongoing support for our members. You'll have direct access to a team of clinicians, including registered nurses, social workers, and dietitians, who can help you actively manage your health.

Care Management is included in your benefits at no additional cost.

## GUIDING YOU TOWARD YOUR HEALTH GOALS

Our Care Management program can help you manage chronic conditions like asthma, diabetes, and mental health needs, and complex medical conditions like cancer or multiple sclerosis. The support you receive is in addition to the regular care you get from your doctor. Your personalized Care Manager can:

- Assess your health needs
- Teach you about your condition and medications, and how to manage your symptoms
- Help you understand your doctor's treatment plan and your care options
- Work with you to develop your health goals
- Partner with your health care team to coordinate your care
- Provide resources to help you make informed health care decisions
- Help you get the most from your Blue Cross benefits
